

Lighting

How rooms are lit makes a big difference in how—and how much—you enjoy them. It's a major contributor to the look and feel of a room, so it's worth spending some time deciding what will work best for you.

Chief® Custom Homes offers a wide variety of lighting options for every room in the house – recessed fluorescent and can lights, wall-mounted sconces, chandeliers, pendants and ceiling fans are available for a truly custom lighting system. For ambient lighting, dimmer switches are also available.
